Goliath® Gel

Cockroach Bait

Goliath® Gel contains 0.5g/kg of Fipronil, meaning only small amounts of bait are required for the powerful Goliath Transfer Effect™ to start working through cockroach populations. The active loading and superior formulation not only make Goliath Gel Cockroach Bait highly effective, but also result in the most economical cockroach bait available with a single cartridge providing up to 1,166 individual bait placements.

Situation	Pest	Rate	Critical Comments
Domestic, Commercial and Public Service Buildings.	German and other common cockroaches.	Apply 1–3 spots per m ² . Recommended spot size is 0.03–0.06g. Increase the number of spots (up to 3) and spot size depending upon severity of infestation and species present.	Gel placement should be at or near areas where cockroaches gather, such as in cracks and crevices.

Refer to the product label for full directions and use table.

Packaging

4 x 35g cartridges
